On 25 May 2019, we have the opportunity to choose our representatives in the European Parliament. This is a time of dynamic change. Therefore, it is crucial for us to elect the best ones, those who will represent Latvia decently in a strong and united Europe.

We cannot solve many issues alone. Only a strong and united Europe can face the challenges caused by migration, security, technological revolution, and climate change.

Let us take action and participate in the elections to the European Parliament because it is our chance to choose the best for Latvia and Europe!
